Future of integrated approach of Treatment after COVID-19

*Dr. D. N.Pande **

During lockdown period of Pandemic - COVID-19 several researches were conducted with **integrated approach with AYUSH**. The results are very encouraging and Government of India now focuses on the system of integrated study during U.G. and P.G. level. The revolutionary changes occurred during 2014 to 2021. Now all the councils are dissolved and National Commission for Indian System of Medicine and National Medical Commission for Modern Medicine took place. This change is in favour of integration of all the medical systems and we hope that a better outcome will occur very soon.

- You all are known to the fact that M. D. Ayu.Sangyahan course was started in 2005 by C.C.I.M. but discontinued in 2016. Why- ?
- Only due to lack of coordination in different systems and lack of integration of medical systems.
- Now this is a correct time to restore M. D. Ayu.Sangyahan for which the new office bearers of our Association are trying their level best.

The Association appealed to the Prime Minister, Ayush Ministry, Secretary AYUSH, President NCISM and Secretary NCISM. We received a positive response.

I hope we will be successful to restore M. D. Ayu.Sangyahan in near future.

Jai Hind

Jai Ayurved

Jai Sangyahan
